May Special Election

One-Half Cent Sales and Use Tax for Street Maintenance and Repair

The City of Alamo Heights will hold an election on Saturday, May 3, 2025, asking voters to reauthorize the one-half of one percent sales and use tax to continue to provide revenue for the maintenance and repair of existing city streets. This tax was first approved and adopted by citizens in 2008.

The State of Texas allows municipalities to collect a sales and use tax exclusively for the maintenance and rehabilitation of existing public street (Tax Code Chapter 327.006). This same law currently requires that voters reauthorize the tax every four years.

The one-half cent sales and use tax will generate approximately \$847,000 each year, allowing the City to address the funding challenge associated with the maintenance of the City's infrastructure.

Frequently Asked Questions

What is the current sales tax rate?

The current sales and use tax rate in Alamo Heights is 8.25%, of which 6.25% goes to the state, 1% to the City, .5% to the City Street Maintenance Fund and .5% to the VIA Metropolitan Transit Authority.

How much will this increase the current sales tax amount?

If approved, the sales and use tax rate would not increase the current sales and use tax. This proposition reauthorizes the current collection of one-half of one percent sales and use tax dedicated for street maintenance and repair. The highest sales tax allowed by state law is 8.25%. Non-residents who purchase goods in Alamo Heights and utilize the City streets would share the cost in maintaining/repairing the streets through the sales tax.

Can the tax collected for street maintenance and repair be used for any project?

State law requires the one-half cent sales and use tax to be spent only on the maintenance and repair of the streets that exist at the time of the election. The funds cannot be used for the construction of NEW roadways or sidewalks.

How will street maintenance be performed?

In 2007, the City established a 20-year Street Maintenance Program which schedules the maintenance and repair of all City streets. In 2008, the City began collecting a dedicated Street Maintenance sales tax and has collected \$6.9 million as of September 2024. With the dedicated street Maintenance sales tax revenue, bond funds and general fund transfers, the City has completed a total of \$11,063,915 street projects as of September 2024. The one-half of one percent would generate approximately \$847,000 in total dedicated street maintenance revenue during the 2025-2026 fiscal year.
